You
in your browser
what you type
calendar file, only after your OK
your browser loads it
Roameo server
No accounts. Your trip stays in memory until it restarts. API keys stay here.
what you type, trip details
AI model
through OpenRouter, only in AI mode
Search services
flights, hotels, events, places, weather
city, dates, airport codes
OpenStreetMap
map and street routes
The searches never get your sentence or your budget.
Roameo never books or pays for anything.
